

Outside broadcast conducted at Heathfield school

Rosebank College Cape Town spokesperson

ON February 11, Good Hope FM conducted its second school outside broadcast at Heathfield High in Retreat, where bursary winners Lorenzo Constant, a former Heathfield High student and Teslynn Lakay, who matriculated last year from Mondale High School in Mitchell's Plain, were each awarded a Rosebank College Cape Town bursary.

Teslynn received a bursary for her first-year studies in a two-year diploma in graphic design and Lorenzo was awarded a bursary for his second-year studies in a diploma in programming.

The Independent Institute of Education is the registered provider of programmes at Rosebank College Cape Town.

Heathfield High principal Mr Moore was awarded an educator's prize, a bursary to study one of Rosebank College School of Business short learning programmes.

Moore was selected for his inspiration to all those who meet him and when he took to the stage, it was evident in the applause – the school adores him.

It was smiles and excitement all around for the pupils of Heathfield High when DJ Suga broadcast live from the school hall and the winners were announced.

TESLYNN LAKAY and DJ Suga.

EXCELLENCE: Sharon Wagner, Hout Bay High School's secretary, was awarded an educator's prize – a bursary to study one of Rosebank College's short learning programmes, at a recent ceremony. She has been instrumental in placing the school and the community on the map and organising a cycle team for the school that is sponsored by various companies in the Hout Bay area. The team takes part in the annual Pick n Pay Argus Cycle Tour. She intends to study business management and administration. It is her dream come true as she was unable to finish her studies after her matric.
