

# Netiquette

## Ts & Cs

Netiquette is an invented word combining “net” and “etiquette”. The word suggests that there are certain behaviours that are acceptable for online delivery. Let’s establish that these are the standards Students and Navigators will uphold during our online sessions.

The Navigator may select a class moderator who will index (type headings in the chat during sessions) as well as give feedback to ensure everyone has a successful learning experience.

HELLO! THANK YOU FOR BEING HERE
